

greasing equipment - hand operated

## grease pump

### J2 Grease pump J2B Bucket pump

The J2 is a grease transfer pump designed for bulk filling grease dispensing equipment, and depending on model can fit pails from 12.5 kg (28 lbs) up to 22 kg (48 lbs), with depths of 315 mm to 390 mm. The J2 is an ideal workshop complement combining economical bulk grease purchasing with the portability of a hand operated pump.

#### Features

- handles up to and including NLGI No.2 greases
- suitable for refilling hand operated grease guns (K29, K32, K45, K40), air operated grease guns (K53, K54) and the 2.5 kg/5 kg Mini-Lube® containers (KT5, KT6)
- includes pump unit, lid and rubber edged follower (all components are also available separately)
- J2B Bucket Pump has a 1.5 m (5 ft) x (1/2") ID delivery with hose (all components also available separately) and 1/4" BSP thread instead of the filler nozzle
- fully sealed to prevent contamination
- 5 year warranty
- 10 year parts availability
